REDDISH PURPLE

Black Prince (germanica), 24 inches. S. & F. both of the deepest purple. Falls have translucent black coating. The buds are soot black. An absolutely indispensable sort, often sold under the name of Black Prince.

2

Governor Hughes (Fryer seedling), 28 inches. S. deep violet tinged with red, F. still deeper shade. Very large orange beard, much heavier than on any other sort. Delightfully fragrant.

10

Caprice (pallida), 30 inches. S. & F. a delicate purple blending into a silky lavender at the base. A little lighter shade than that of the rare Edouard Michel. A decided grape juice fragrance.

2

Pauline (pallida), S. & F. very large rich pansy violet, deep orange beard, fragrant.

8

Parc de Neuilly (pallida), 28 inches. S. & F. a navy blue of reddish tinge, with an ever changing effect. Very free and one of the darkest.

6

Edouard Michel (pallida), 32 inches. S. & F. unusual shade of rich reddish purple. Stock very limited.

10

Monsignor (neglecta), 28 inches. The violet rays of the standards enliven the clerical velvety purple crimson of the falls, whose very dark veining adds dignity to the whole. A most stately, massive and imposing variety. Totally distinct and most desirable.

3

Orientalis (sibirica), 30 inches. S. & F. intense deep blue with narrow foliage. Very suitable for natural planting.

1

BLUE LILAC

Walhalla (interregna), 24 inches. S. light violet, F. dark purple, very showy, large flowers. A striking bicolor.

3

Gertrude (pallida), 34 inches. S. & F. same shade, rare violet blue. Unexcelled for house decoration where a clear uniform shade is desired. Peterson variety.

3

Perfection (neglecta), 30 inches. S. fresh lavender, flecked with deeper shade, F. rich velvety lavender, dark reflections. A most pleasing and highly attractive bicolor, very well named. Has more blossoms on one stalk than any other sort.

3

Dalmatica (pallida), 44 inches. S. & F. delicate lavender with pink reflections. A pastel shade much sought for, with broad glaucous foliage.

4

Violette Grandiflora (pallida), 32 inches. S. & F. fresh clear violet. Very massive and blooms late. A highly desirable sort, not well known.

2

Junia (pallida), S. & F. clear blue, deeper than Dalmatica. Large fragrant flowers, tallest bearded iris.

6

Lohengrin (pallida), 33 inches. S. & F. pink silvery mauve, shading nearly to white at the claw. A tall, strong grower, with wide leaves. Undoubtedly the most desirable of all the pallidas.

4

Isoline (squalens), 36 inches. The Imperial Mandarin. S. opalescent lilac 3 inches long, surmounting an apron of 3 3/4 inch mauve falls, making a very striking combination that is most beautiful, artistic and unique.

5

Her Majesty (pallida), 30 inches. S. pinkish violet tourmaline, F. deeper shade heavily veined. A very sturdy sort.

2

Queen Alexandra (squalens), 30 inches. S. lavender, F. pale purple, very self reliant in attitude. A real queen. One of Peter Barr's choicest sorts. Unusual and scarce.

3

M. Aymard (Denis seedling), 24 inches. S. "Bishop's" violet, F. some with veining of purple, very rare.

9

Rose Unique (pallida), S. & F. bright violet rose, nearest approach to a pink iris.

BRONZE

KEY

Read down columns for all of same color. The number under each variety refers to the group in which price can be found.

Prosper Lavigier (squalens), 30 inches. S. fiery bronze, F. velvety ruby purple, like a pansy bloom. This new "bronze" variety outclasses them all in being a clear, well defined striking combination in a complete harmony of correctly blended colors. The hardest and freest blooming sort of this whole list.

5

Eldorado (squalens), 32 inches. S. fiery opalescent, F. old gold silhouetted with burnt purple. Possessing a totally distinctive harmony of subdued hues and perfect blending unknown in any other iris.

5

Iris Koenig (squalens), 28 inches. S. bronze yellow, F. very large maroon edged yellow. Well named "The King of the Iris."

6

Quaker Lady (squalens), 36 inches. S. lilac mauve, F. deeper shade with old gold tinge. A modest though highly pleasing effect.

7

Red Cloud (squalens) (Farr seedling), S. "Rosy" lavender bronze, F. velvety maroon crimson.

8

Clarence Wedge (Fryer), 30 inches. S. "Heliotrope" tinged with yellow with lighter edge, F. purple red "Glory Stream."

7

WHITE

Florentina (species), 26 inches. S. & F. pearly white, source of orris root perfume; quite fragrant.

2

Fairy (plicata), 36 inches. S. & F. resemble sun kissed snow outlined by the faint azure of the sky. The crests of the stigmas are a most delicate lake blue with an abundant though delicate perfume suggestive of the wild wood nymph. The tallest white.

4

Rhein Nixe (amoena), 36 inches. S. pure white, F. raspberry purple edged white. A most vigorous grower, always dependable. The only one of the white standards and purple falls worthy of being kept in our selected list. As it originated on the banks of the Rhine, its jaunty air may have suggested its name.

4

La Niece (variegata), 26 inches. S. & F. a pure wavy white without any throat veining.

9

White Knight (Saunders), 18 inches. S. & F. absolutely snow white without markings.
